CYBER KNIGHTS ENTERPRISE - INFOSEC POLICY

Version 1.0 (Superseded) | Effective: Jan 1, 2022 | Expiration: Dec 31, 2023

SECTION 1: REMOTE NETWORK ACCESS

1.1 All remote employees must connect to corporate infrastructure via Cisco AnyConnect VPN.
1.2 VPN session idle timeout is set to 8 hours. Split-tunneling is enabled for non-work internet traffic.

SECTION 2: PASSWORD AND AUTHENTICATION STANDARDS

2.1 Passwords must be at least 8 characters long, including one number and one symbol.
2.2 Mandatory password rotation is enforced every 90 days across all corporate directories.
2.3 Two-Factor Authentication (2FA) is optional for standard non-administrative user accounts.

SECTION 3: HARDWARE AND DEVICE MANAGEMENT (BYOD)

3.1 Bring Your Own Device (BYOD) is permitted: Personal laptops may be used if registered with IT.
3.2 Employees are responsible for maintaining updated antivirus software on personal equipment.

SECTION 4: DATA TRANSFER AND STORAGE

4.1 Offline data backup to encrypted USB flash drives is permitted for business continuity.
4.2 File transfers over standard email attachments are allowed up to 25 MB per message.
