CYBER KNIGHTS ENTERPRISE CORP - INFOSEC POLICY

VERSION 1.0 (SUPERSEDED) | EFFECTIVE: JAN 1, 2022 | EXPIRES: DEC 31, 2023

SECTION 1: REMOTE NETWORK ACCESS

1.1 All remote employees must connect to corporate infrastructure via Cisco AnyConnect VPN.

1.2 VPN session idle timeout is set to 8 continuous hours. Split-tunneling is enabled by default for non-corporate internet traffic.

SECTION 2: PASSWORD AND AUTHENTICATION STANDARDS

2.1 Passwords must be at least 8 characters in length, containing at least one numeral and one special character.

2.2 Mandatory password rotation is enforced every 90 days across all accounts.

2.3 Two-Factor Authentication (2FA) is recommended but optional for standard user accounts.

SECTION 3: HARDWARE AND DEVICE MANAGEMENT (BYOD)

3.1 Bring Your Own Device (BYOD) is permitted: Personal Windows or macOS laptops may be used for remote work, provided employees register their device MAC address with corporate IT.

3.2 Antivirus software of the employee's choice must be active and updated on personal devices.

SECTION 4: DATA TRANSFER AND STORAGE

4.1 Offline data backup to encrypted USB flash drives is permitted for business continuity.

4.2 File transfers over standard email attachments are allowed up to 25 MB per message.
