CYBER KNIGHTS ENTERPRISE CORP - INFOSEC POLICY

VERSION 2.0 (SUPERSEDED) | EFFECTIVE: JAN 1, 2024 | EXPIRES: DEC 31, 2024

SECTION 1: REMOTE NETWORK ACCESS

1.1 Cisco AnyConnect has been retired. All remote access must route through Cloudflare Zero Trust / WireGuard gateway.

1.2 Maximum idle session timeout is reduced to 2 continuous hours. Split-tunneling is strictly disabled.

SECTION 2: PASSWORD AND AUTHENTICATION STANDARDS

2.1 Passwords must be at least 12 characters in length.

2.2 Password rotation interval is set to 180 days.

2.3 Multi-Factor Authentication (MFA) is mandatory for all users via SMS OTP or Microsoft Authenticator app.

SECTION 3: HARDWARE AND DEVICE MANAGEMENT

3.1 BYOD personal laptops are strictly prohibited for engineering, finance, and production database access.

3.2 Employees must use company-issued Lenovo ThinkPads with BitLocker encryption and Defender antivirus.

SECTION 4: DATA TRANSFER AND STORAGE

4.1 External USB mass storage devices and removable flash drives are blocked at the operating system level.

4.2 Cloud storage is restricted to corporate Microsoft OneDrive with Data Loss Prevention (DLP) tagging.
